

Software Requirements Specification (SRS): e-Prashikshan 2.0

Date: 15 May 2026 | Version: 1.0

2. Introduction

The e-Prashikshan 2.0 platform is a scalable, role-driven digital learning ecosystem designed to support the complete academic lifecycle.

3. Overall Description

e-Prashikshan 2.0 is a modular, service-oriented platform for instructional and administrative workflows.

4. System Architecture

Logical Architecture: Head (Admin Control), Portal (Learners), Certification (Public Verification).
Deployment: Cloud-hosted, stateless compute instances.

5. Core Management Modules

Focuses on User Management (FR-UM), Course Management (FR-CM), Certification (FR-CERT), and Enrollment (FR-ENR).

6. Academic Integrity & Feedback

Focuses on Assessments (FR-ASM), Feedback (FR-FBK), and Attendance (FR-ATT).

7. Operational Intelligence

Focuses on Dashboards, Communication, Payments, and Content Management.

8. Security & Scaling

Focuses on Security/Compliance, Mobile Learning, Multilingual support, and Grievance Redressal.

12. Non-Functional Requirements

Performance (<2s response), High Availability (99.9%), Security (AES-256), Scalability (10k+ concurrent users).
